March 17, 2006

Médecins Sans Frontières / Doctors Without Borders Canada is pleased to be a recipient of proceeds from an innovative endeavour by Eugene Pik and Anthony Barker – Million Artists. This project invites artists from around the world to add one coloured pixel to a webpage to create a picture and break the “Most Painters of One Picture” Guinness World Record. MSF is very grateful that a portion of funds raised will be donated to our work.

MSF is the world’s leading independent international medical relief organization with 19 sections worldwide. We are currently operating in 76 countries, delivering urgent medical relief to populations in distress. Whether they be victims of natural or man-made disasters or victims of armed conflict, our volunteers help to alleviate the suffering and restore the health of men, women, and children living in extremely precarious conditions.

MSF Canada is always grateful for individuals across the country who support our efforts through community events, which are a terrific way not only to raise funds, but also awareness of the plight of people who otherwise might be neglected. The Million Artists project is a unique example which aims to assist those in need through art. You can contribute to providing urgent medical care around the world by visiting www.millionartists.com or www.msf.ca.

If you should have any questions with respect to MSF’s work or Million Artists, please do not hesitate to contact me.

Sincerely,

Nancy Forgrave
Acting Director of Fundraising
Médecins Sans Frontières Canada
