Cystic Fibrosis Worldwide is excited to announce our partnership with MillionArtists.com to raise funds on behalf of people with Cystic Fibrosis. Eugene Pik and Anthony Barker are working to reach the goal of setting a world record by having over a million people help create a piece of art. Each artist will make a small donation to participate and those funds will be passed on to Cystic Fibrosis Worldwide (CFW) and other participants such as, SickKids Foundation and NOCA.

Cystic Fibrosis Worldwide, (CFW), is an international non-profit organization with headquarters in the US and in the Netherlands. CFW is dedicated to improving quality of life and life expectancy for people living with cystic fibrosis (CF) in developing countries. CFW has 56 member countries and works in official relations with the World Health Organization. It is the mission of CFW to reach out to people with CF in developing countries by working to help build effective CF clinical care. This includes organizing much needed medications, development, training and education of health care providers and spreading awareness of CF at the government and community levels.

Over the last 2 years CFW has been able to build a CF Centre in The Republic of Georgia of the former Soviet Union. We have begun developing the Cystic Fibrosis South Asian Trust to aid people with CF all over South Asia. We have held educational workshops and conferences in countries like Greece, Denmark, England and Ireland to name a few. The CFW Newsletter reaches of 4000 people all over the world and the CFW website has over 40,000 visitors a month. Our future plans include supporting the development of CF care in Armenia and El Salvador.

Everyone who participates in the MillionArtist.com project will be aiding CFW in our fight to improve the lives of CF patients from all over the world. CFW is proud to be a partner in this fundraising event and thanks both Anthony and Eugene, for choosing CFW as a charity to sponsor.

Kind Regards,
